I did receive a copy of the charge preferred by Lieut. Ringgold; they are in substance the same as I have been tried on by this Court. I was induced to believe that I should receive Surgeon's pay for duty performed on board the Forpnise at the time I first offered to join the expedition; it was a verbal conversation or promise; the promise was made at Lieut. Correspondence of The Tribune.

PHILADELPHIA, August 16, 1842. Since my last, there has been nothing worth recoiding. There is nothing new in politics, in law or business, and the few local occurrences of the several past days, may be put in a nutshell. So "stale flat and unprofitable" are the doings of

John King, the man who in a state of intoxicason was run over by the Camden and Ambov main, died at our hospital on Sunday. Wm. Scott has been bound over as one of the game who fired the Hall on the night of the riot. The owners, both of the Hall and the Church, have already commenced proceedings against the County, and not a question exists but that they will recever the full amount of damages-thus, so far as dollars and cents may go, wiping off this foul reproach from Philadelphia.

Quite a thriving business has been done in this city, in the financiering way, by passing forged checks of well known merchants, and getting goods and money in exchange. Several tricks of the kind have been detected .- A German, named Dischlager was drowned in the Schuylkill while bathing. From his violent exhibition of anguish and shrieks for help, it is supposed the poor fellow was seized with cramp. Richard Warner was killed on the Reading Railroad on his way to the city with coal, leaving a wife and six children. The cars passed over his chest, causing instant death. Deaths last week, 105. Adults 28children 77. Our city continues remarkably healthy, considering the amount of unhealthy trash which is supposed to be brought into the markets. The Abolitionists have just issued a long document, exculpating themselves from charges and imputations in reference to the colored population; and condemning in strong terms the "extreme injustice and cruelty of the policy which has led to the late riots." A tremendous meeting of the friends of Temperance was held on Monday in the extensive Hall recently occupied by Dunn's Chinese Collection.

Theatricals in our city are at the lowest poss ble ebb, but a strong attempt is organizing for the purpose of restoring the "legitimate drama." 470 sovereigns, has elicited eloquent addresses from the Hon. G. M. Dallas, W. B. Reed, Esq. and yesterday from our great criminal advocate, David Paul Brown, who contended that the lady never had the money, but that it is only a conspiracy to deprive the prisoner of what belongs to himself. A queer matter, certainly. The ver-

Captain March, of the schr. Caroline, from Porto Rico, has been committed to prison on charge of committing a most brutal assault on an old sailor, whose arms, he in conjunction with the mate. pinioned, then, drawing a blister on his back by a mustard plaster, hoisted him naked to the yard arm, exposing the raw flesh to the broiling sun .-The outrage is too gross to be credited, but it is swern to, and what is more, corroborated by the

crew. The mate kas escaped. Stewart Law and Michael Redmond were com mitted yesterday for obstructing the Custom House Officers in the discharge of their duties. Although there is nothing doing in the city in the way of politics, accounts from the interior show no little activity. At Pittsburgh, the Birmingham of our State, the temporary reverses which are occurring elsewhere will fail to check the strong feeling which prevails there in favor of Clay and a Protective Tariff. Pittsburg is now a large city, and the centre of a very extensive country, west of the mountains, to which the prosperity of this manufacturing depot is all-important. In their reproof of the treacherous man who has so wantonly sacrificed the great interests of Pendsylvania to his selfish malignity, they say some hard things; e. g. the Saturday Visiter de clares that John Tyler, hopeless of the support of a Christian people, has negotiated with a great Judge in Israel for the interest of the Jews; but infers that as, twenty years ago, the Jews refused to make Mordecai a 'Judge,' they will hardly follow him now. The sacrifices made by Tyler have not been unacceptable where offered, but have been of the wrong kind to be acceptable where they would have been of service-net sacrifices of his own crude opinions to the wishes of the people. These are the sacrifices that would have rendered the buying of Jew or Gentile unnecessary. These men of Pittsburg are as hard as flint and cut as keenly as their own domestic steel. Their primary movements, preparatory to the approaching election, excite more than ordinary attention, and call forth the united strength of the mass; for the subject is one which elicits there a direct, personal interest in almost every member of the community. Pittsburg is the great western barrier of Pennsylvania, which will throw back the adverse influence that local dissensions may have created at the recent elections. Unfavorable as the returns may seem, they will but unite us in stronger efforts, and urge us on to more determined action for the rescue and the glory of the State. In all directions the note of preparation is sounded with an alacrity and a zeal which nothing can repress. At Westchester, twentythree miles west of us, one of the largest and most enthusiastic Whig meetings was held on Thursday last that has ever assembled in that district. I have just been refreshed and delighted with the perusal of their proceedings. They emphatically embrace the great principles advocated in the glorious contest of 1840, and express the strong conviction that our noble 'Harry of the West' is the decided choice of the People. Every indication, in fact, within the borders of our own State most certainly gives us this assurance. The resolutions in favor of Mr. Clay, a gentleman whe was on the spot says, were adopted with unparalleled unanimity. It was, says the Record, a most cheering exhibition of the harmony, feeling and cherished principles of the Whig party. This Westchester is one of the garden spots of this rich and fertile State. It has a thriving, intelligent, dense population, and possesses many objects of interest, not the least of which is the splendid Hotel erected by Mr. Everhart, whose miraculous escape from the melancholy wreck of the Albion. lost on the Irish coast several years since, was so thrilling an incident. He was, you recollect, al-

most the only passenger saved, so sick as hardly

to be able to crawl upon deck, and yet was thrown

For three weeks past it has rained more or less, in every twenty-four hours. The consequence is, our farmers have been much troubled in gathering their out harvest. Many fields of oats yet lie in swarth. We understand our neighbor Scofield. of Shippan Point, has thirty acres of oats lying in this condition. The weather, however, at this mo ment, looks more favorable for a settled state. [Stamford (Ct.) Adv.

The storm raged with great violence at Nahant on Sunday last, and the scene witnessed from the rocks was one of great grandeur and sublimity. The sea ran very high, and broke over the highest ledges. Nahant is doubly worth a visit during a severe north-east storm. It is then, and then only, that it can be seen to the best advantage.

My face was one continuous sore, from which discharge of matter and water kept constantly oozing out. a discharge of matter and water kept constantly obtaing out. Dr. John Thomson.-Having been restored to health by the above named individual, when all other hopes of relief had failed, and having received the benefit of his practice in extreme cases in my family, and witnessed it in many other desperate cases during the past seven years.

I deem it no more than a duty to recommend my friends, particularly such as are suffering under chronic disease, to embrace the present opportunity of benefitting themselves by his bug experience and undoubted skill in the healing art.

I. D. WILLIAMSON,

Pastor of the Elizabeth-street Church, New-York, 377 Broome-street. New-York, Aug. 17th, 1842.

FROM MRS. NANSCAWEN. PROM MRS. NANSCAWEN.

Doct. Thomson—Sir: I have been in a feeble state of health for the past eight years, having been afflicted with a bad cough, pain in the side and stomach, and other female weaknesses too numerous to mention. I have at various times been under the attendance of ten regular Physicians, times been under the attendance of ten regular Physicians, several of whom have given me up as incurable. I have continued to linger in a feeble state of health until a few days past, when I put myself under the care of Dr. Thomson, No. 343 Broome street, and at this date consider myself in a better state of health than for the past eight years. I do not feel any pain, distress, or inconvenience, from any disease whatever. I am surprised when I think of the rapidity with which I have improved while under his care. I have also witnessed with surprise the rapid improvemen of several other patients, whose diseases appeared as obsti-nate as my own, under the Doctor's care.

MARY D. NANSCAWEN, 347 Broome-st.

MARY D. NANSGAWES, O. New-York, Aug. 17th, 1842.

I have witnessed the improvement of my wife and others, as detailed in the above certificate, with pleasure and astonishment.

REV. WILLIAM NANSGAWEN.

TO TAILORS .- One of the greatest discoveries ever made in the art of Cutting.—JOHN DAVIS has discovered the true principle in the Balancing and Drafting of Coats—which principle I have no doubt has been more studied than any other science, for all other sciences have been confined to but few compared with the thousands of the trade that have turned their attention to discover this point, both here and in Europe for this fifty years. It is an entirely original and self-varying system, years. It is an entirely original and self-varying system, nothing complicated, no matter in what position the person stands. When you draft the Coat, it works out every point perfectly correct. This system has been thoroughly attested by a number of the trade for eighteen months in New-York. Any of the trade wishing to obtain a good rule for Dratting Coats, with an original improvement on Vests, and other useful instructions in the general art of Cutting, are solicited to call at 156 Fulton st. WILMINGTON, Del., March 5th.

Dear Sir—Permit me to express my sincere and grateful thanks to you for the great benefit and relief I have experienced from your truly valuable Pills.

I have been afficied for the last two years with vertigo, attended with sickness at the stomach after eating, and general debility. I sought advice from many of our physicians of this city, and while under their care I felt somewhat relieved, but as soon as I commenced attending to my business and exercising I found that I was no better. After a fortnight's confinement to the house, which time I could not spare, and finally made up my mind to try the effects of fortnight's confinement to the house, which time I could not spare, and finally made up my mind to try the effects of your medicine. After using the Pills for a week, I found I was not so much troubled, and could attend to my business six months, and, wonderful, to say, I have not felt any symptoms of the disease for the last four months, and can only attribute it to to the use of your Pills, and would not sent you this acknowledgement without being fully satisfied that your Pills alone have benefited me, and hope that the many victims of disease gray son, find out the value of so good a victims of disease may soon find out the value of so good medicine.
